

Blowing the Trumpet

Written by Ray Dickinson
For the church of Philadelphia on May 8, 2022

Coming to grips with the millennial seal (as in the above post) opens possibilities for interpreting the voice of God that we could not otherwise fathom. The Lord was gracious in sending us many dreams to make us think and re-think how the scriptures are fulfilling in light of the signs in the firmament. Every new day, every new event, every new insight, gave reason to re-examine how the prophecies were fulfilling. The word of God is alive, and it teaches us new things every day—from the very same pages.

The heavens are God's felt-board. He has seven figures and about 12 background scenes, plus a few special items, with which to portray a vast amount of prophetic information. Just as the teacher does when teaching a story to children with felts, a single figure may be used in one story with one setting to illustrate something completely different than the same figure would represent in another story in a different setting. This is nothing new to us. We have seen how Aquarius can represent the leader of the LGBT movement as well as the divine Giver of the water of life. Likewise, when God gives dreams that are depicted in the heavens, there may be different heavenly bodies that have similar characteristics and could be interchanged in the storytelling.

In the case of the heavens, of course, this has an impact especially on the timing, since the different planets move at different rates. Consider the dream called "Traveling and Recognizing" from Brother Aquiles, for example. What if Aquiles is represented not by the moon, but by Venus—representing the church?

Traveling and Recognizing

21-04-2022

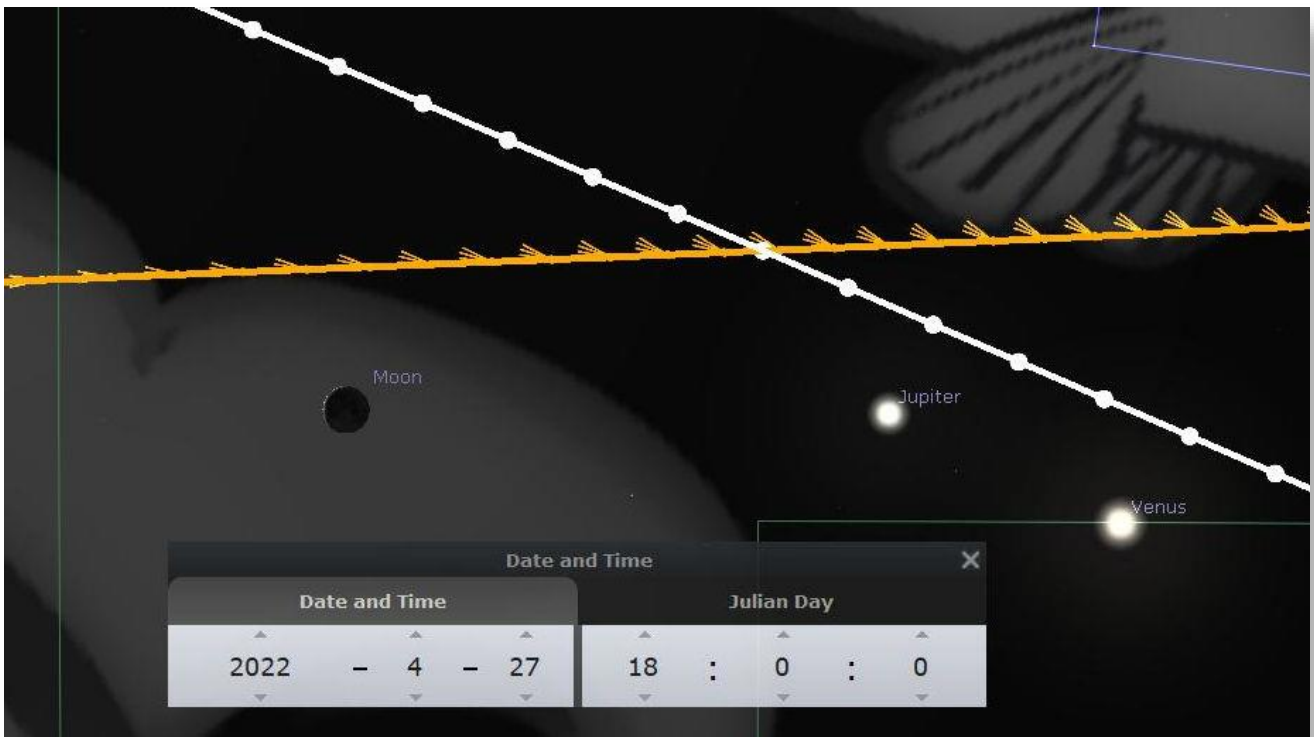

I'm on a bus that looks like a train because of its length, and I'm walking towards the back and I'm looking where I'm going because I don't want to make a mistake about the stop where I have to get off; I know that where I have to get off must be a highway crossing. When the bus arrives at a stop, I get off to recognize the place and if it corresponds to where I should stay. When I am recognizing the place, I see that the bus closes the back door and moves, therefore, I run to reach the front door and get on, but I do not think I can reach it and so I hang on to some thin metal

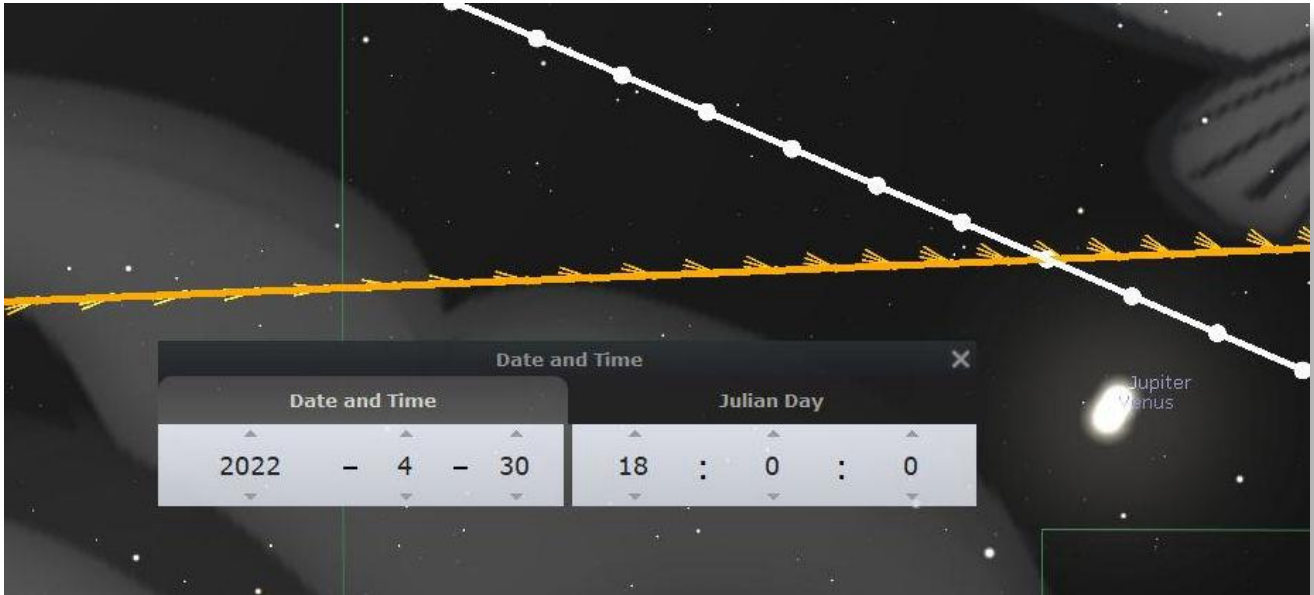

railings that do not allow passengers to get out of the windows. I move forward, and the driver sees this maneuver and stops further ahead. I wait for him to open the door, and I don't remember if it was him or someone else I was talking to. I was going to ask him why he left me if I was not going to stay in the place, but I wanted to be sure that it was my stop and if not I would go back through the door where I got off. In the mental conversation, the person answered me that I should plan the trip in case the stop where I arrive is a lonely and dark place so that I know where I am standing. I find the planning complicated as I have to recognize where I am going during the trip and only get off at the highway junction; I am just worried that I will arrive at the junction during the night and have trouble getting off safely.

When we first shared about the dream, we had been expecting the rapture to take place on April 24, and we understood the dream to correct the date to April 27, corresponding to an arrival date of May 4, 2022, when the moon comes to the hand of Orion at the front of the bus.

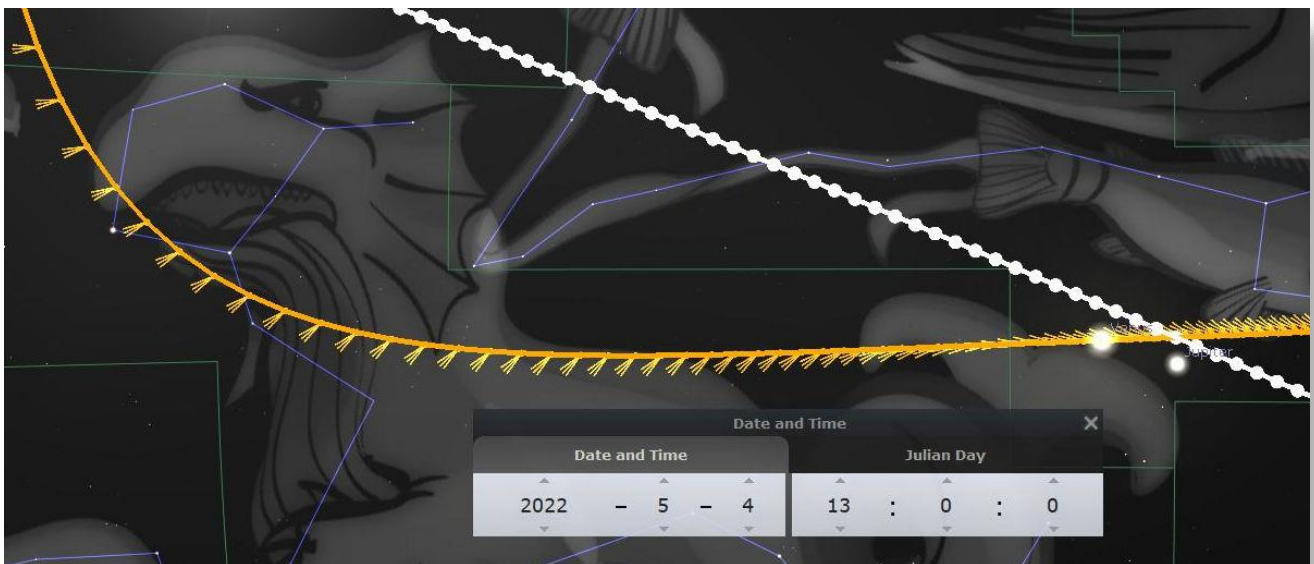

But if the dream was referring to the motion of Venus instead of the moon, we see a different timeline.

On April 27, Venus “stepped out”, but this is no highway crossing. In hindsight, this stepping out represented waiting for the rapture on the date of April 27, which was still not the correct stop. He had to hold on to a thin rail over the window, represented by the thin borderline between the constellation “windows”. As he tries to get back on the bus, he has a mental conversation with the driver, which is depicted by the conjunction between Jupiter (the driver) and Venus (Aquila).

The highway crossing, is, of course, the PanSTARRS trajectory. Note, however, that when one comes to a highway crossing, it is not a final stop, but a transition point. Aquiles gets off the bus to go on the highway to his destination. In biblical symbolism, we can recognize the “highway” stop as the beginning of a very important time:

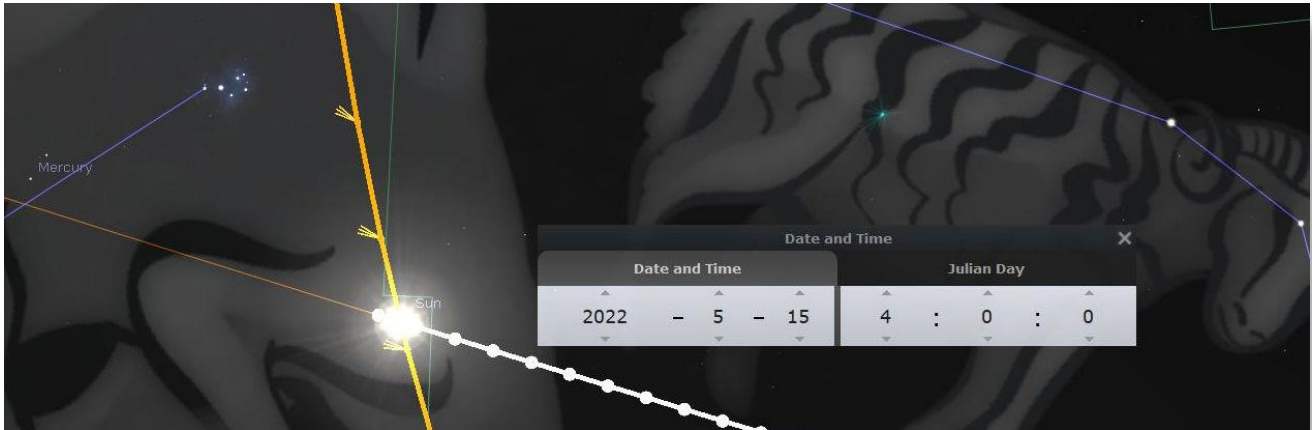

This is the beginning of the seventh trumpet, symbolized with Venus at the mouthpiece, when the mystery of the rapture time should be solved:

*But in the days of the voice of the seventh angel, when he shall begin to sound, the mystery of God should be finished, as he hath declared to his servants the prophets.
(Revelation 10:7)*

Venus, representing the church, blows the seventh trumpet, which is described as a process (of which, Venus at the mouthpiece represents the beginning). The sound must travel through the trumpet to come out at the bell end of the trumpet. But how is the sound shown in the heavens, and when? The next

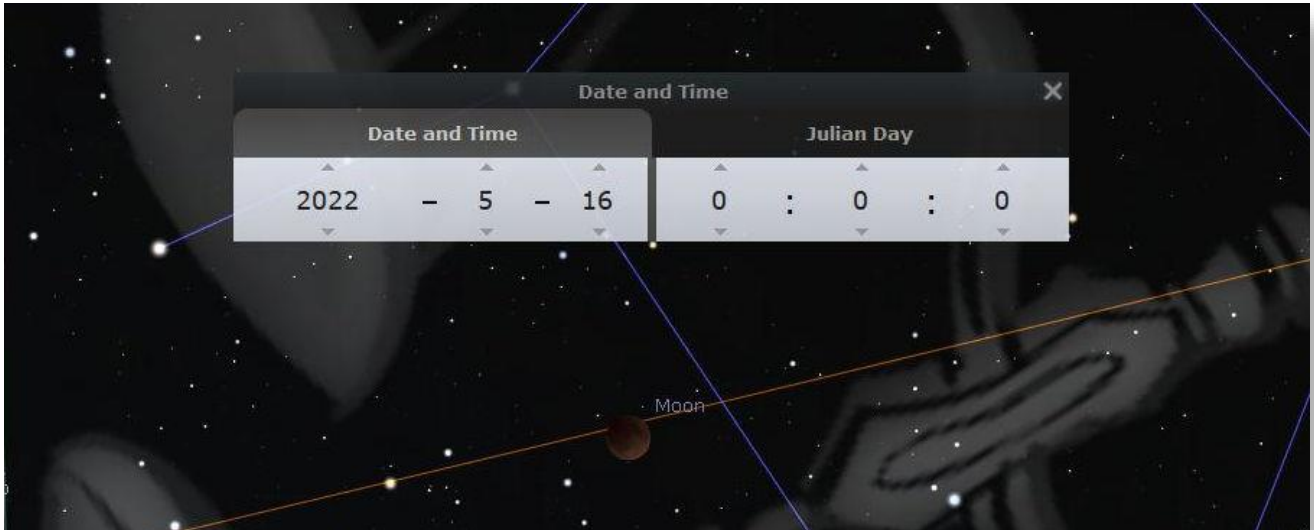

heavenly body that comes to the other end of the PanSTARRS trumpet, representing the sound of the blast, is the sun:

This is an important moment, because it answers a big question that has arisen in the course of the “final observations” that have now grown into a tome of knowledge: Amidst all these signs, how is it that God announced the day and the hour through the Hunga Tonga eruption? Now, we can see how God’s voice declared the time of the second coming and the rapture from that eruption that resounded around the globe and marked when the PanSTARRS millstone was cast into the sea by a faith that could move a mountain. **That same thunderous voice, rolling through the earth, marks the last moments as the sun crosses the comet’s path!** Then, the Bridegroom holds the rod and staff in his hand—the sickle and the silver trumpet:

Soon our eyes were drawn to the east, for a small black cloud had appeared, about half as large as a man’s hand, which we all knew was the sign of the Son of man. We all in solemn silence gazed on the cloud as it drew nearer and became lighter, glorious, and still more glorious, till it was a great white cloud. The bottom appeared like fire; a rainbow was over the cloud, while around it were ten thousand angels, singing a most lovely song; and upon it sat the Son of man. His hair was white and curly and lay on His shoulders; and upon His head were many crowns. **His feet had the appearance of fire; in His right hand was a sharp sickle; in His left, a silver trumpet.** His eyes were as a flame of fire, which searched His children through and through...
{EW 15.2}

Is the rapture to be expected when the sun crosses the PanSTARRS line, or is there a certain amount of time during which the trumpet sound is clearly heard before the rapture? Notice that this is just hours BEFORE the Passover blood moon—at **midnight**, when God chose to deliver His people:

We recognize that this lunar eclipse must be the well-known sign of the moon turning to blood, whose presence in Libra (the balances) portends judgment over the earth. It follows the recent sign in the sun on April 30, when the solar eclipse turned a part of the sun black, like a black sack covering its face in regret for what must shortly come to pass.

And I beheld when he had opened the sixth seal, and, lo, there was a great earthquake; and the sun became black as sackcloth of hair, and the moon became as blood; (Revelation 6:12)

The world will be destroyed by fire—apparently the nuclear hail of World War III—and in the sixth seal, the sign in the moon is followed by the falling stars, representing that hail, so the blood moon must be shortly before the hail of nuclear missiles that the nations use to war against the Lamb and His saints. The same hail also appears in the seventh trumpet and is depicted in the heavens by the beginning of the Arietid meteor shower, once the sun has given a loud voice to the seventh trumpet.

These shall make war with the Lamb, and the Lamb shall overcome them: for he is Lord of lords, and King of kings: and they that are with him are called, and chosen, and faithful. (Revelation 17:14)

Notice how the days following (marked from evening to evening as Hebrew dates) bring the sun to the *Golden Gate of the Ecliptic* in Taurus. Do you see a special significance to the date of the arrival of the sun—representing the Bridegroom—to that gate!? It is May 25, the [memorial anniversary](#) of Christ's crucifixion!

Thus, we see the travel itinerary as it should be, and wow, what better day could there be for Jesus to swing open the glittering gates for the saints to enter in and partake at the table of the Lord, who at the cross did all that was needed for them to be there!

This is that bread which came down from heaven: not as your fathers did eat manna, and are dead: he that eateth of this bread shall live for ever. (John 6:58)

Jesus made His flesh and blood available to man on the cross, and in the spiritual sense, at the marriage supper, the saints will partake of the bread of the cross—the manna of the heavenly Canaan—and shall live forever. Counting back the seven days of the travel, the rapture and first day of travel would then fall to May 17/18, 2022—two days after the Passover blood moon. This is considering the second possibility, or the second-month Passover provision like was used by King Hezekiah because the priests had not sanctified themselves sufficiently (see 2 Chronicles 30:1-3). Then the Lord raises the great multitude of His faithful people and with the living saints, begins the ascent to the Orion nebula.

And, behold, I come quickly; and my reward is with me, to give every man according as his work shall be. I am Alpha and Omega [the aleph of Taurus and the tav of the cross], the beginning and the end, the first and the last. Blessed are they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city. (Revelation 22:12-14)

Just as it was at Jesus' crucifixion, He lay in the grave on the first day of the feast of unleavened bread and was resurrected and ascended to His Father on the second day of the feast of unleavened bread—the day of the wave sheaf offering. It is the perfect timing for a setting of the cross!

Sister Rhonda Empson also had a [dream](#) recently where she heard it said that the rapture would be on the same day as His ascension. We can suppose that this was a reference to His first ascension early on Sunday morning just after informing Mary, but before returning in the evening to minister to His disciples until His second ascension ten days before Pentecost.

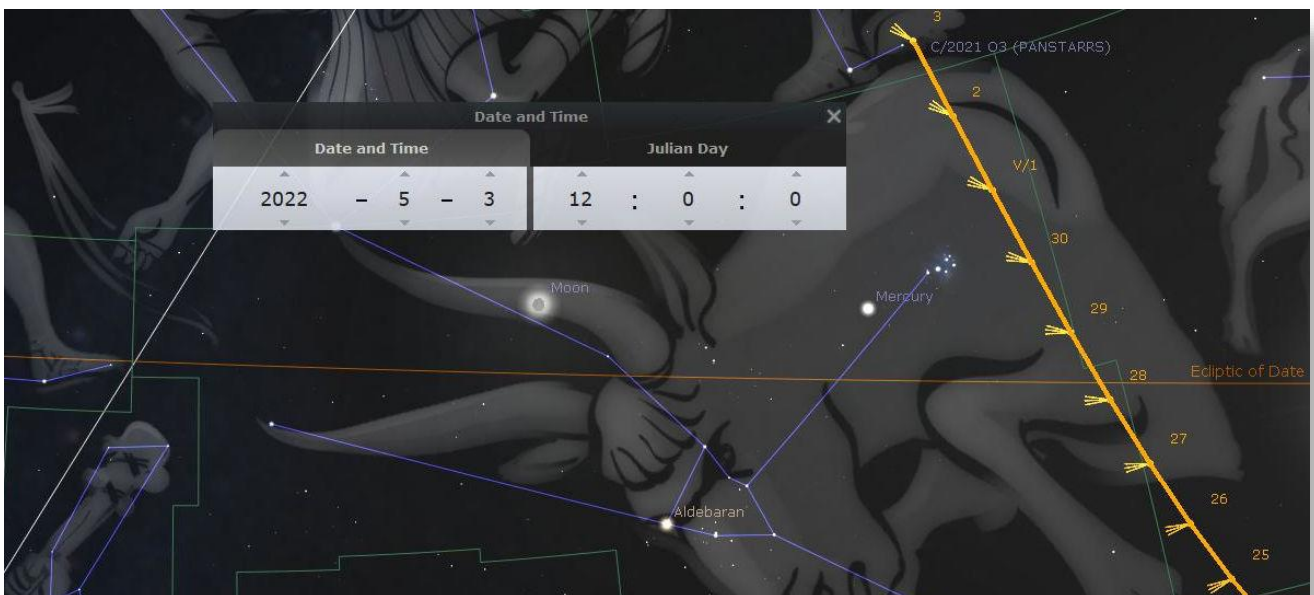

Jesus saith unto her, Touch me not; for I am not yet ascended to my Father: but go to my brethren, and say unto them, I ascend unto my Father, and your Father; and to my God, and your God. (John 20:17)

And do you remember how the PanSTARRS trajectory illustrated two trumpets... the silver trumpet that Jesus uses to raise the righteous dead in the first resurrection, and the shofar that sounds later for the second resurrection after the millennium? Notice who is poised at the mouthpiece to blow the shofar immediately after the rapture, signaling that the left behind will rise again after the thousand years:

As amazing as this is, it is not the end of the marvels! When we look again at the beginning of the sounding of the trumpet on May 4, 2022, we recognize that this is the day when all the portions have been used. For $1260 + 51 + 372 = 1,683$ days, daily rations of flour and oil from the sacrificial services of the Mosaic feasts as well as the ideal temple services (described in the last chapters of Ezekiel), were provided from the great wonder of the woman of Revelation 12, to which many Christians looked up on September 23, 2017. What remains for them after their last portion was consumed on May 3, 2022—the day that the PanSTARRS comet leaves the temple area (Taurus) and thus, the constellations of prophetic significance?

Venus, representing the church, in whom dwells the Holy Spirit, was seen in perfect time on the very next day—when the Lord gave the light of this study—to breathe the Spirit of life into the trumpet. This is the final sustenance from the Holy Spirit to bring us to the marriage supper. It is the conclusion of what Jesus began with the first disciples on that evening after returning with the Father's approval:

Then said Jesus to them again, Peace be unto you: as my Father hath sent me, even so send I you. And when he had said this, he breathed on them, and saith unto them, Receive ye the Holy Ghost: (John 20:21-22)

Jesus sent out His disciples with a breath of the Holy Spirit, and now, after the gospel work has been completed, He finishes the mystery with another breath of the Holy Spirit, blowing through the seventh trumpet.

Please understand how deep this is! It is much more than a nice parallel to the beginning of the gospel work, but it represents a time when Jesus gives power to His saints against their adversaries. This brings us to another dream we received recently, that is also connected with that same date of May 4, 2022:

Detention Room

April 29, 2022

Another person and I are in a small detention room which has only the door opening. I see a man arrive who looks like a policeman or guard who is carrying a truncheon over a meter long and I sense that we are going to be punished for not obeying what they expect of persons. When he raises the club, I don't remember if by raising my arms I am opposing him by grabbing the club or if I am just raising my arms as a sign of being helpless; I remember telling him that the act of beating me is not justified as I am a man over 60 years old and that I should just follow him and give my statement. But apparently their idea is to teach others like us a lesson so that they will not follow in our footsteps. So, in view of the danger with my arms up I raise my head and ask God for His protection. A quick scene passes before my eyes, and I see as if a strong wind and a lot of fog and then I see on the ground a skull that must be a policeman or guard and a very dirty floor. I know that soon we are going to have more serious problems when those who sent the guard find out and I don't know what they can do against us afterwards.

We explained the dream in [The Defense of the Defenseless](#) , but now we understand better what really happened at that time. The moon is in Orion's hand on May 4. And who is Orion? Let me reiterate that Orion no longer represents Jesus in this context, because Jesus is no longer interceding as the High Priest! Orion no longer serves as a probationary clock. That time is over, and we have transitioned to the Royal Horologium time since the last Orion cycle ended on June 21, 2021, and the comet that functions as the Horologium clock hand, Bernardinelli-Bernstein, was observed to have a cloudy coma on June 22, 2021.

Indeed, Alnitak is now coming as the King of kings and Lord of lords—the Lamb on His throne, against whom the nations war. In this setting, it is the warring nations that are represented by the plain old Hunter (Orion), with raised club (activated by the moon) to fight against our returning King. Aquiles represents the saints who receive power of protection from the weapons of the enemy.

This time of special protection has been prophesied as follows:

Soon we heard the voice of God like many waters, which gave us the day and hour of Jesus' coming. The living saints, 144,000 in number, knew and understood the voice, while the wicked

thought it was thunder and an earthquake. **When God spoke the time, He poured upon us the Holy Ghost, and our faces began to light up and shine with the glory of God,** as Moses' did when he came down from Mount Sinai.

The 144,000 were all sealed, and perfectly united. On their foreheads was written, "God, New Jerusalem," and a glorious star containing Jesus' new name. At our happy, holy state the wicked were enraged, and would rush violently up to lay hands on us to thrust us into prison, **when we would stretch forth the hand in the name of the Lord, and they would fall helpless to the ground.** Then it was that the synagogue of Satan knew that God had loved us who could wash one another's feet, and salute the brethren with a holy kiss, and they worshiped at our feet. {CET 58.1-58.2}

On May 4, Venus came to the line of PanSTARRS, representing the Glory of God, by which our faces began to light up and shine. The reference to Moses coming down from Sinai when he had received the Ten Commandments is also very important, but will be covered separately, because it is beyond the scope of this post.

With daily prayers for deliverance, the saints may stretch forth their hands and the wicked will fall helpless to the ground, unable to wield their power and weapons against us, for the Lord has bestowed upon His saints, the never-ending blessing.

And as God spoke the day and the hour of Jesus' coming, and delivered the everlasting covenant to His people, He spoke one sentence, and then paused, while the words were rolling through the earth. The Israel of God stood with their eyes fixed upward, listening to the words as they came from the mouth of Jehovah, and rolled through the earth like peals of loudest thunder. It was awfully solemn. And at the end of every sentence the saints shouted, "Glory! Alleluia!" Their countenances were lighted up with the glory of God; and they shone with the glory, as did the face of Moses when he came down from Sinai. The wicked could not look on them for the glory. **And when the never-ending blessing was pronounced on those who had honored God in keeping His Sabbath holy, there was a mighty shout of victory over the beast and over his image.** {CET 95.3}

This is the hour when faith has gained the victory! Those who have honored the Creator by keeping their God-given DNA holy and undefiled by man's genetic vaccinations and have continued in faith until now, receive the blessing of power from on high that prevents any evil intent from standing against us!

What shall we then say to these things? If God be for us, who can be against us? He that spared not his own Son, but delivered him up for us all, how shall he not with him also freely give us all things? (Romans 8:31-32)

It is the Father's good will to give us the kingdom. While we were studying His voice that proclaims the day and hour, we heard "peals of loudest thunder," that refined our understanding. Throughout that time, there were portions provided, because it was not the end. This study, by contrast, which the Lord gave beginning after sunset on May 3, 2022, provides the necessary strength to endure the final days, because it is the final understanding. No further portions are needed, because it contains the correct solution to the mystery. The seal upon that solution, which settles the matter, will be presented separately. Until then, may the Spirit of God sustain you, having now led you into all truth.

Maranatha!
